

Subham Sahoo

Cyber Security Intern

6370414783 ◇ subhamsahoo2306@gmail.com ◇ India ◇ [LinkedIn](#) ◇ [GitHub](#)

SUMMARY

Cybersecurity professional specializing in Vulnerability Assessment and Penetration Testing (VAPT) with hands-on experience in web, host, and network security testing through internship at Threatsys Technologies Pvt. Ltd. Certified in eJPT, Google Cybersecurity, and CEH v12. Skilled in penetration testing, OWASP Top 10, Linux, Python, SIEM, and security tools including Nmap, Burp Suite, Nessus, Wireshark, and Metasploit.

EXPERIENCE

Cybersecurity Intern

Threatsys Technologies Pvt. Ltd

Jun '25 — Jul '25

Bhubaneswar, India

- Assisted in real-world web, host, and network penetration testing engagements.
- Performed vulnerability scanning, reconnaissance, and security assessments using industry-standard tools.
- Conducted web application security testing aligned with OWASP Top 10 standards.
- Supported vulnerability reporting and remediation documentation.

SKILLS

VAPT & Security Web Application Security Testing, Network Security, Host Security, OWASP Top 10

Security Tools Nmap, Burp Suite, Metasploit, SQLMap, Gobuster, Nessus, Wireshark, Nikto

Operating Systems & Networking Kali Linux, TCP/IP, DNS, HTTP/HTTPS, Reconnaissance, Enumeration

Programming & Scripting Python, SQL, JavaScript, Bash Scripting

PROJECTS

Web VAPT Tool [Link](#)

Apr '26 — Present

- - Developed an automated Web VAPT tool for vulnerability scanning and web application security assessment.
 - Implemented detection for SQL Injection (SQLi), XSS, Directory Traversal, CSRF, and security misconfigurations.
 - Performed reconnaissance, endpoint analysis, and vulnerability assessment aligned with OWASP Top 10.

Intrusion Detection System (IDS) [Link](#)

Jul '25 — Sep '25

- - Developed a network intrusion detection system for monitoring suspicious traffic and detecting cyber threats.
 - Performed packet inspection, network monitoring, and threat analysis using Python.
 - Implemented real-time detection for suspicious activities and unauthorized access attempts.

Honeypot [Link](#)

Oct '25 — Nov '25

- - Configured a honeypot environment to monitor attacker behavior and malicious activities.
 - Analyzed security logs and suspicious events using SIEM and log monitoring techniques.
 - Performed threat intelligence gathering and incident monitoring for cybersecurity analysis.

PhishLite 2.0 [Link](#)

Apr '25 — Jun '25

- - Developed a phishing awareness and simulation platform for cybersecurity training and research purposes.
 - Demonstrated phishing attack techniques and analyzed common social engineering methods.
 - Focused on cybersecurity awareness, phishing prevention, and threat analysis concepts.

AWARDS

CTF Winner

Silicon University , Bhubaneswar

Apr '26

CTF Runnersup

International Institute of Information Technology Bhubaneswar

Apr '25

EDUCATION

B.Tech in Computer Science and Engineering, Synergy Institute Of Engineering and Technology
(GPA: 7.6)

Aug '23 — Present
Dhenkanal, Odisha
